Junior Full-Stack Developer with hands-on experience building web applications using React.js, Node.js, Express.js, MongoDB, and REST APIs. Experienced in developing responsive frontend interfaces, backend APIs, authentication systems, admin functionality, and e-commerce features. Familiar with Git and GitHub, JWT authentication, PostgreSQL, Sequelize, and Next.js. Passionate about building practical projects, learning new technologies, and developing reliable full-stack web applications.

## Projects

### Luxury E-Commerce Website

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

- Built a full-stack e-commerce web application with React.js for the frontend and Node.js with Express.js for the backend.
- Implemented user authentication using JWT.
- Developed product management functionality for administrators, including adding and deleting products.
- Implemented shopping cart functionality allowing users to add and remove products.
- Developed backend APIs for products, users, and orders.
- Implemented protected routes and authorization for administrative functionality.
- Used MongoDB for application data storage and Git/GitHub for version control.

### Facebook Clone

React.js, Next.js, Node.js, JWT

- Built a social media web application inspired by Facebook using React.js and Next.js.
- Developed backend functionality using Node.js.
- Implemented JWT-based authentication.
- Applied component-based frontend development and API-based communication between the frontend and backend.

### Personal Portfolio

React.js, Tailwind CSS, MailJS

- Built and deployed a responsive personal portfolio website using React.js and Tailwind CSS.
- Developed a single-page application to showcase technical skills and software projects.
- Integrated MailJS to enable visitors to send emails through the contact section.
- Deployed the portfolio using Vercel

## Education

### Bachelor of Oil Engineering

Sudan University for Science and Technology

## Technical Skills

### Frontend

HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS

### Backend

Node.js, Express.js, REST APIs, JWT Authentication

### Databases

MongoDB, PostgreSQL, Sequelize

### Tools

Git, GitHub, Postman

### Core Concepts

Authentication, Authorization, API Integration, Responsive Web Development

## Languages

**Arabic** — Native/Bilingual

**English** — Professional Working Proficiency
